Subject: FOREIGN TRADE, IMPORT AND EXPORT JOB POSITIONS

To whom it may concern

Our country has adopted the target of export based growth, I want to develop myself in this field and advance my business life in this direction. The idea of doing business on a global scale and interacting with people all over the world with different cultures attracts me, besides the encouragement and goal of our country in this field is a positive factor for people like me. If to be honest, I believe that I have received an intensive and serious education on the subject of **foreign trade** at *TDV Turkish Foreign Trade Foundation*.

Having the opportunity to work and gain experience in an important organisation of our Aegean Region, will be extremely decisive for someone in my position who wants to advance in this field. If there be a chance, I would appreciate it if you consider my resume and application.

Best Regards

HOBBIES AND INTERESTS

More about myself

I would like to share some clues about my way of thinking to give a brief idea to whom read my resume. I hope it is going to be helpful easing your job on taking a clearer profile of me at least.

I love to use books, to calm my mind and to relax, but it has to be printed, I can not find much soul in e-books. Also I am fond of sports, since the middle schooldays I internalized workingout and doing sports, with the help of basketball now its a habit for me and I feel bad about about it if I do not do some workout for a week. Besides I like to consume and participate some culturel contents which attract my interest such as music, and movies.
