## **Company presentation**

**DRAUBER S.R.L.** was established in 2013 as a **shipping/transport** company with the basic goal of an efficient and high quality activity on road freight transport in Europe, performing both full loads and groupage in domestic and international traffic. This activity led to the construction of a consistent portfolio of clients due to the seriousness and effectiveness of the activity submitted during this period.

Taking into account the field in which we have carried out our activity so far, we have decided that it is best to expand our scope of services in the field of **cold storage**. In this sense we have a newly built hall of 2,000 square meters, divided into six cold rooms with a storage capacity of 1,500 pallets, with goods for controlled storage between -24 and +6 degrees Celsius, with the possibility to provide customized services as needed, including local/regional distribution, cross-docking, picking, sorting, repackaging and labeling services. Our warehouse is located in the local Industrial Park on Beothy Odon Street and the access is made from the European road E79 in the proximity of the Borş border crossing point.

# Transport services

## **SAFETY**

The transported goods are insured in case of damage, accident, theft and destruction according to the legislation in force, the additional insurance covering the amount of 100,000 - 200,000 Euros for both domestic, intra-community and extra-community transport, the insured amount can be increased as needed.

## **TRANSPORT**

Our partners benefit from quality services at high standards, having at their disposal the following types of means of transport:

- vans / tarpaulins from 3.5 tons to 7.0 tons;
- trucks 20-24 tons, with a length of 13.6-15.4 m, 90-120 m<sup>3</sup>, these being tarpaulins, isothermal vans and temperature controlled, or equipped with ADR.

## **TRANSHIPMENT**

Our company also offers services of temporary storage of goods that require storage at controlled temperatures, but also the most efficient and safe transhipment solution, the warehouse being located in a very advantageous area, near the E79 communication close to BORȘ border point. The goods are stored in safe conditions, using appropriate equipment and qualified personnel for their handling.

## **AREA of ACTIVITY**

We carry out both full and group loads in domestic, intra-community and non-EU traffic, our area of activity being mainly in the following countries: Hungary, Czech Republic, Slovakia, Poland, Germany, Netherlands, Belgium, England, France, Spain, Portugal, Italy, Austria, Slovenia, Bulgaria, Greece, Finland, Sweden, Norway and Denmark, not limited to these.

## **PROFESSIONALISM**

Our company has a competent, flexible and dynamic team, constantly in contact with its partners, ready to solve your transport needs. Our experience in this field of activity, the seriousness offered over the years as well as maintaining relationships with partners by gaining their trust, recommends us as a solution to your transportation needs!

## **CORE VALUES**

We are a long-term partner, on whose experience you can rely upon and which offers you at any time solutions and answers to all transport needs in the import-export activity you carry out. Our goal is to continuously develop the structure and quality of the services provided to our partners and at the same time to operatively solve the requests of both customers and carriers, offering optimal solutions in terms of price / quality.

## **REFERENCE**

The values that we have mastered and that we have assumed from the very beginning, as well as the organizational culture of the company, have helped us to consolidate a portfolio of important and renowned clients in the international economic environment, collaborating with over 400 partners with whom we have strengthened long-term professional relationships, including Bonduelle, Unilever, Szatmari Konzervgyar, Waberer's, DSV, Nestle, but also in other fields such as automotive, textile, furniture and so on.

In regards to transport tariffs, they shall be agreed upon, depending on the destination and characteristics of the transport, by direct negotiation. We emphasize transparency, which is why we prefer a direct and open communication.

***Thank you for your choice!***
